

Sit-Dry™ Cushion

because dignity matters....

The Sit-Dry™ Cushion

People in our care for want to retain a normal sense of modesty. They like us feel embarrassment, and therefore we should make every effort to provide them with as much dignity as possible. That's why we have come up with a decorative, practical and economical solution for this constant problem. Yet another RRS simple solutions....

Waterproof or vinyl upholstery is only part of the solution to the problem of 'Smelly Chairs'. Urine can leak into chairs through seams and collect in those difficult areas. Even with open sided chairs the problem still exists, as well as the additional problem of leakage onto the carpet (unless of course you already use our best selling Wacmat®)!

Our unique Sit-Dry™ gives maximum protection — this is down to the three layer component system:

- **The outer cover provides an attractive homely appearance**
- **Inside, the super absorbent pad**
- **A waterproof casing to ensure that liquids cannot escape onto the chairs**

Unlike other products designed for the same task, the Sit-Dry™ has the important advantage of having the appearance of a normal comfortable welcoming chair cushion. Its purpose is therefore concealed, giving residents some well deserved dignity and pride.
